Lester Snow
Executive Director, Calif.
1416 Ninth Street
Sacramento CA 95814

Dear Mr. Snow,

We are against the revised CALFED plan. We oppose the plan to increase water level in the Central Valley. Raising the Shasta Dam would flood segments of Sacramento and McCloud river.

We understand water is in sufficiently used by California growers.

We also understand the constant raising and lowering of the river is detrimental

0408(2)
to wild life and relating
natural life.

You must look into other
ways to ~~find~~ water power
possibilities. - like less
water consumption for crops,
By using water meter,

Mr & Mrs A W Borkman
